

Manage contracts intelligently. Organized.

CONTRACTOR PERFORMANCE INTELLIGENCE

Increased project success through software utilization and implementation of best practices

Burn rate, scheduled, deliverables and option renewal notifications

Facilitates QASP, CPARS, CLIN tracking, modifications, and closeout activities

Easily accessible performance management templates, tools, tutorials, and knowledge base

Increased efficiency due to the automation of redundant and time-consuming processes

Improved quality, schedule, cost control, and forecasting

Agency Leadership Benefits:

Real time access to contractors' performance and status of deliverables

Hub for all contractor/vendor information and agency assets (goods/services, licenses and maintenance agreements)

Quick views of the full universe of contracts (scope, POP, type contractor, funding, FTE)

'Simplify how you manage your contracts from post-award to closeout.' Contractor Performance Intelligence™ (CPI™) is a comprehensive contractor management solution that includes productivity tools, automation, educational tools, best practice templates, and AI to help you do more with less.
